1. Referenced memorandum (a), copy attached, contains the following recommendation and request: "The construction of a Division laboratory and shop building on the [REDACTED] site is recommended, and approval of the use of Agency funds to the extent of [REDACTED] for this purpose is requested." This recommendation and request was approved by the DCI on 23 May 1958.

2. Referenced memorandum (b), copy attached, contains the following authorization: "The Acting Deputy Director (Plans), Mr. [REDACTED] and the undersigned have discussed this matter and are agreed that subject to the provision of the necessary funds this construction work should be undertaken immediately. You are therefore authorized to [REDACTED] Acting Deputy Director (Support).

3. The engineering estimate of [REDACTED] was submitted by [REDACTED] in March 1958 and increased building costs since then may result in a requirement for additional funds. It will be necessary to revise the original drawings to conform to the requirement for a removable type structure and not a permanent structure (masonry block). It is not expected that this change will materially increase the cost.

4. The Office of Logistics does not have FY 1959 funds available for this project. It is requested that the sum of [REDACTED] be made available to the Office of Logistics to proceed with this construction.
